Dear Ms. Raming:

Subject: Workplan for Additional Site Assessment

File: Georgia-Pacific Fort Bragg Sawmill, 90 West Redwood Avenue, Fort Bragg
Case No. 1NMC462

Thank you for the June 23, 2004 *Workplan for Additional Site Assessment* and the subsequent revised workplan (Workplan) from TRC for this site. As we discussed in our telephone conversation July 13, 2004, I do agree that this proposed work can provide additional useful information. However, since I have not finished my review of the *Phase II Environmental Site Assessment Report* and related material, additional investigation may be necessary in the future. You may proceed with performing the work proposed in the Workplan, with one technical modification:

- Please report the full range for the total extractable petroleum hydrocarbons analyses, not just the diesel range results.

I understand that this work will be performed on July 20 and July 21, 2004. Please submit a report of field findings within 60 days of completing the field work. This includes submittal of the analytical results to the state's GeoTracker database.

If you have any questions or comments, you may contact me at huntc@rb1.swrcb.ca.gov or (707) 570-3767.

Sincerely,
